

# Quintium™

## Equipment and Material for Casting Quintium Optical Armor

Just \$49,000 and you'll have the dispensing equipment and 1 starter drum set of material to create your first transparent anti-ballistic parts.

**\$49,000**

### METER-MIX-DISPENSE

## Q17

### Thermoset Castable Armor

- Impact resistance and kinetic energy absorption exceeds all other available transparent polymers:
- Light transmission (clarity) exceeds most industry standards
- **Less Weight:** Approximately 1/2 of ballistic glass, Effective weight reduction of 30% - 40% in transparent ballistic and blast armor systems
- High abrasion resistance. Unrivaled multi-hit performance
- Unlike most other ballistic-resistant polymers, it is resistant to chemical solvents and aromatic hydrocarbons (e.g. gasoline)
- Polymer re-closes after ballistic penetration, resulting in unrivaled multi-hit performance

340 Hurst Bourne Lane, Suite 210  
Duluth, GA 30097

# Centerpointe CPE-404

## CPE-404 Features:

- Control panel with vacuum switch and gauge, A & B pump pressure gauges, key pad controls for the adjustable frequency drives, and tank temperature controllers
- Trigger-style dispense gun offers one-handed ease of operation.
- Stainless-steel feed tanks with cast aluminum lids and solvent flush tank
- **Optional foot pedal for hands-free dispensing**

- VLT™ Dialog Program Management System for set-up, start-up, and control of digitally controlled electric motor
- High performance, positive displacement pumps
- Driven by Hypoid Electric Gear Motors with reduction gearing
- Trigger-style dispense gun with heated 10-ft. material dispense hoses with temperature controller
- Built-in shot timer for dispensing
- Digitally controlled tank heating system
- 240 Volt electrical and heating systems
- Solvent and air flush system
- (2) 10-gallon stainless steel tanks with cast aluminum lids (includes vacuum valves, thermometer, and air-operated mixers)
- On-board vacuum for overnight material storage
- Material recirculation system

## Licenses & Equipment Availability

- Training & Setup Included in Price
- Please Ask About Our 30 or 80 Gallon Units
- Exclusive Licenses available for specific applications
