

## SERVICE SPOTLIGHT: SPRAY POLYUREA

### *SPRAY POLYUREA CAPABILITIES*

**THE HANSON GROUP'S SPRAY POLYUREA** capabilities are explained by polyurea spray expert, Jerimy McNeil in the below video. With 11 years of spray polyurea experience, Jerimy leads a team of three full-time trained spray technicians. The Hanson Group has two 20' x 20' spray booths that can handle large and small parts providing endless opportunities. OEMs that lack resources or those that don't want to interrupt their daily schedule with a small part run, can farm their spraying out to The Hanson Group for a quick turn-around.

## ABOUT THE HANSON GROUP

If you don't know us, then we'd like to introduce ourselves.

Established in 1996, [The Hanson Group](#) is a specialty raw material business catering to customers in the coatings, adhesives, and plastics business. Over the past two decades the company has evolved to provide formulated systems – combining raw materials and personalizing properties of chemicals to create a finished product ready for consumer use. Today, The Hanson Group manufactures products for the sporting goods industry, military, aerospace, DIY, boating, automotive, mining and industrial markets. The Hanson Group owns [Aragon Elastomers](#) and [Visuron](#), which specialize in casting and coatings, respectively. The Hanson Group is known for its quick innovation and problem solving skills in material science and safety.

The Hanson Group follows our motto of “Good People – Great Science” in hiring the right employees that work well together, are technically competent and are customer focused to solving problems. We believe that there is a whole lot of success, opportunities and fun on the other side of "yes."
